

## **InstallatørGruppen strengthens the platform with the addition of Erik Lytzen A/S**

InstallatørGruppen has entered into an agreement to acquire Erik Lytzen A/S, a multidisciplinary installation company headquartered in Hjørring, Denmark. The transaction is subject to merger control approval and will – upon approval – mark InstallatørGruppen's 40th acquisition in Denmark, bringing the total number of companies across Denmark and Switzerland to 44.

Since 2023, InstallatørGruppen has built a strong platform in Denmark and Switzerland based on a decentralised business model. Erik Lytzen is an excellent example of the type of company InstallatørGruppen seeks to partner with: Owner-led, well-established, multidisciplinary and with more than 50 years of experience delivering turnkey solutions to private, commercial and public clients.

Peter Frandsen, Country CEO of InstallatørGruppen in Denmark, comments: "Erik Lytzen is a great business with broad technical expertise and deep local roots in North Jutland. We look forward to welcoming the entire team to the Group once regulatory approval is in place."

Anders Nielsen, CEO of Erik Lytzen A/S, adds: "For Martin and me, finding the right partner has been important – one who understands what we have built and shares our ambitions. We are therefore very pleased to be joining InstallatørGruppen, while retaining our name, culture and talented employees."

Upon completion, Erik Lytzen A/S will continue to operate independently under its current management, with Anders Nielsen and Martin Søndergaard at the helm, in line with InstallatørGruppen's decentralised partnership model.

Erik Lytzen A/S was founded in 1970 and employs 222 people, a quarter of whom are apprentices. Revenue in 2025 was DKK 250 million. The company delivers solutions within electrical installation, plumbing, ventilation, industrial services and building automation (CTS), operating across eight locations in Denmark and Greenland. The anticipated addition will strengthen InstallatørGruppen's presence in North Jutland and add further capabilities in complex, multidisciplinary installation projects.

## **About InstallatørGruppen**

InstallatørGruppen is a leading provider of technical installation solutions in Denmark and Switzerland with approximately 2,150 employees. The Group consists of independent companies with a strong local presence and solid technical expertise. The companies deliver solutions within heating and plumbing, electrical, ventilation, cooling, and adjacent disciplines, including sprinkler installations, energy optimisation, building automation, fibre optics infrastructure, and solar panel installations. The Group's ambition is to be a preferred partner in the energy transition.

InstallatørGruppen is owned by its owner-managers and FSN Capital, a leading Northern European private equity firm.
